The mobile hand wash solution for clean hands anywhere - hot water in seconds!

Odyssey sink technology is different...

- It doesn't constantly heat all the water at once
- It doesn't use power all the time
- It doesn't need time to heat up

Simple solutions to complex problems

Plumbed water can be expensive and sometimes impossible so our mobile sinks offer a simple solution.

How does it work?

Position your Odyssey mobile sink next to a plug socket. Fill the clean water container with cold water. Place the clear pipe into the container. Place the waste pipe in to the waste container. Plug in, your sink is now ready to use. Hot water in seconds.

Fast

Hands are washed in seconds

Less Energy

Uses power only when you touch the button

Less Cost

Less energy means less running costs

Need to hire a sink?

We hold 100's in stock. Whatever your requirements we can help, with our whole range of sinks available to hire.

Can't decide?

With years of experience we can help you get the best out of your budget if you need 1 sink unit or 100 just give us a call.

I need it now

We even offer a same day courier service where possible. Outside of normal office hours email info@mobilesink.com and we'll call you back.

Are they suitable?

Unlike other hire equipment companies our sinks are fully hygienically cleaned and checked after every hire. To guarantee a hygienic hand wash solution.

EVENTS AND EXHIBITIONS

Does my event need sinks?

Offering a hand wash or a wash station to your exhibitors can give reassurance to them and the consumer that all guidelines are being kept.

It's only a small event?

We have covered all size events all over the UK from small local events to national festival and exhibitions. If you need a few we can even deliver to stand and offer a service desk where needed.

What do I need to do?

Just give us a call, we can even bring the water and staff to your event.

Need more than 20?

Ring us for our multiple hire price, you'll be pleasantly surprised.
